LOCAL POS DEPOT

Grocery POS Guide

A curated Local POS Depot brochure for grocery stores, supermarkets, mini-marts, and food retailers.

Fast Checkout

Barcode scanning, payment hardware, and receipt workflows for busy lanes.

Inventory Control

Track departments, SKUs, PLUs, stock levels, and purchasing workflows.

EBT & Grocery Tools

Support grocery-specific needs like EBT/eWIC, produce PLUs, labels, and scales.

Growth Add-ons

Loyalty, online ordering, digital receipts, ecommerce, reporting, and security.

(754) 755-7563 | Info@localposdepot.com

Solutions included in this guide

This brochure combines grocery-friendly POS platforms and add-ons that help retailers manage checkout, inventory, EBT, weighing/PLU workflows, loyalty, reporting, and hardware.

Gokul POS

Supermarkets, grocery, convenience, lottery, tobacco, inventory, EBT and scale-related retail workflows.

NRS

All-in-one POS, produce PLUs, EBT/eWIC, advanced data, ecommerce, loyalty, labels and security add-ons.

Retailz POS

Inventory, dual pricing, scan data, EDI invoicing, promotions, electronic shelf labels and retail hardware.

Epos Now

Award-winning POS hardware, retail/hospitality checkout, printers, barcode scanners and accessories.

Best for: grocery stores, supermarkets, mini-marts, ethnic markets, delis, convenience-style grocers, and food retailers that need dependable checkout plus back-office control.

Gokul POS

Grocery, supermarket, and multi-store retail tools with hardware, inventory tracking, dual pricing, loyalty, and reporting.

- Supermarket and convenience-store features
- Hardware bundle: display, scanner, printer, drawer, terminal, scale, and label printer
- Inventory, reporting, loyalty, cloud backup, and multi-store management

LOCAL POS DEPOT

ATTENTION!

DUE TO STATE AND LOCAL LAWS, NRS **DOES NOT** SELL OR INSTALL SCALES.

THESE SCALES CAN BE INTEGRATED WITH THE NRS POS:

BEST SELLER

INTEGRATES ONLY WITH CHEETAH MODEL POS

ZEBRA MP7001-MPSLM00US

NATIONAL RETAIL SOLUTIONS

IMPORTANT:

IN ORDER TO CONNECT THE TOR-REY SCALE TO OUR POS, YOU WILL NEED A

FEMALE/FEMALE DB9 RS232 SERIAL NULL MODEM CABLE

THE CABLE MUST BE CONNECTED TO COM2 OR COM3

IN ORDER TO POWER AND CONNECT THE ZEBRA SCANNER SCALE TO OUR POS, YOU WILL NEED

1. ZEBRA POWER SUPPLY KIT- (KIT-PWR-12V50W)
2. ZEBRA AC LINE CORD- 23844-00-00R
3. ZEBRA, MP6000/7000 SERIAL DB9-M 5M CABLE(CBA-R51-S16ZAR)

*NRS does not provide support for weight calibration – retailers should contact its state or local office of Weights and Measures regarding calibration and all applicable state and local scale regulations that apply to its business. The above listed vendors and scales are provided as a general guide only. NRS is not affiliated with any of the vendors and NRS is not recommending any particular vendor or scale. The above listed exact scale names/models have been tested and can be integrated with the NRS POS unit. You must purchase these scales independently. NRS does not provide installation support or warranties for any independently purchased scale; only basic guidance on connection to the POS unit will be provided. To ensure precise measurement performance, the Zebra Scale unit can ONLY process weights up to 30 lbs.

PRODUCE PLUs

www.tinyurl.com/nrspluguide

The NRS POS has a pre-programmed database that includes thousands of industry-valid PLUs for fruits and vegetables. If your store sells produce, we recommend you use the four-digit PLU numbers that you typically find on the stickers, on fruits and vegetables.

When you add produce items using a valid PLU code, the name of the product will auto-populate and you can designate the price, department, and if the item is sold by weight (if you have an integrated scale).

If the fruits and vegetables do not have stickers on them, you can download this Produce PLU guide with valid PLU numbers, so that you can easily add items to your pricebook. Click to download the PLU guide.

BR Club Shopping App Advantage

When valid PLUs are added to your pricebook, these products will be displayed in the BR Club Shopping App under **"Produce"**, allowing your customers to easily select and order these fruits and vegetables.

Click to download the PLU guide.

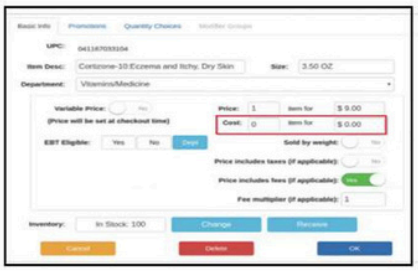

LOCAL POS DEPOT

ADVANCED DATA

INCLUDING PROFIT & COST

ANALYZE MORE ABOUT YOUR SALES AND PROFIT!

This **Premium Feature**, available in your merchant portal, allows you to export your data in Excel or CSV format for 3 reports types. This is a subscription Premium Feature that requires signup for use. **Advanced Data** allows you to see Gross Profit based on items that you have set up with a Cost. This feature can be used whether or not you track those items with the inventory feature. Two new fields are available to enter unit cost, independent of whether you're tracking the items with the inventory feature.

In the **Pricebook Management** screen, you will see the **Gross Profit** and **Cost** associated with your items. These changes will take place on the POS, the Merchant Portal, and will show on the Merchant App, when the Merchant App is updated.

If you have subscribed to this Advanced Data Premium Feature, you have access to 4 additional types of reports to better analyze the sales of your store: **Item Sales Tab, Details, Profit** and **Graphs**.

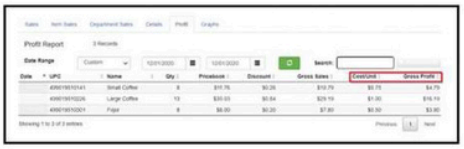

The Item Sales tab shows an entry for each item (including PLU items) summarized by the period covered, whether it be daily, weekly, monthly, etc.

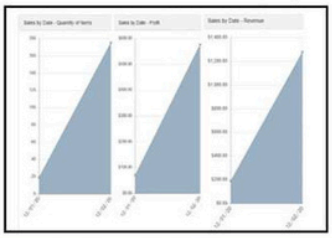

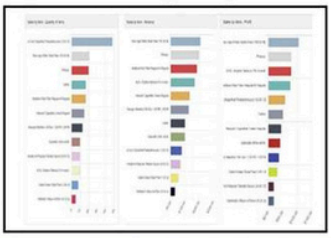

In the **Details Report**, you can see individual item sales with UPCs, and the date and time of the sale. The dark line between groups of items represents the end of a basket.

In the **Profits Report**, you can see sales of individual items summarized by the period selected and their corresponding profit. You can sort by the columns using the small up/down arrows to the right of each column name.

In the **Graphs** tab, you can view Sales sorted by quantity of items, revenue and profit. This gives you a better view of your most sold items, most revenue from items, and most profitable items, etc. Clicking on a specific item, shows you the sales for just that item.

NOTE: In all the **Data** reports now, the **CUSTOM** date range setting aggregates the data into one line per displayed item. This option is not available on Graphs.

TO SIGN UP, CLICK ON THE DETAILS TAB ON YOUR POS AND TAP MANAGE MY FEATURES, OR CONTACT YOUR SALES AGENT.

PREMIUM NRS FEATURE

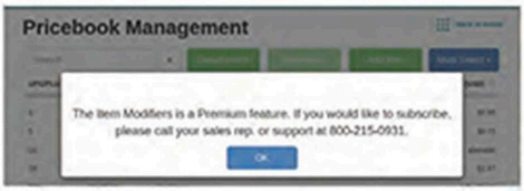

NATIONAL RETAIL SOLUTIONS

ITEM MODIFIERS

ON ALL PRICES, TAX IS ADDITIONAL

"Item Modifiers" allows you to customize prepared food items in your Pricebook with various options, with prices you control. Some of the options could be descriptive on how the customer wants the item prepared, while others can be extras the customer may request to add or hold. The modifiers can be purely descriptive (no fee) or can affect the cost of the original product.

NOTE: Without a paid subscription, the following message will appear when attempting to access **Item Modifiers** in Pricebook Management.

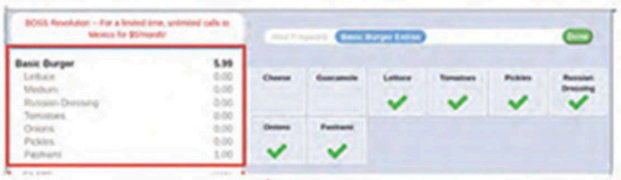

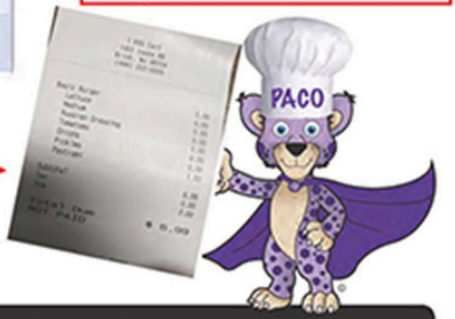

The ability to add, edit or delete **Item Modifiers** is a permission that must be set up in the User Profile section (Main Page > Select Users).

This is how modifiers will display on the register tape and **Print Basket** option. If you have our optional kitchen printer, you can use **Print Basket** to send these details to the kitchen for preparation:

NOTE: NRS has an available IP Printer option for stores to be able to print to a separate kitchen printer. The NRS IP Printer is available for purchase in the Marketplace or by calling **(833) 289-2767**. Purchase of the IP Printer requires a simultaneous subscription to the **Item Modifiers** feature.

The NRS eWIC program is subject to terms and conditions. Visit www.nrsewic.com for pricing and complete details. Available in select states only and the merchant must have a WIC ID from the applicable state. Requires the NRS POS system and NRS Pay credit card processing services, which are each subject to additional pricing, terms, and conditions. If the eWIC service is cancelled by NRS due to non or late payment by the merchant, and the merchant requests reinstatement, then NRS may reinstate the service provided that the merchant pays all past and current due amounts for the service and a reinstatement fee of $100. Reinstatement of service is solely at NRS's discretion. Certain costs for the NRS eWIC program may be eligible for reimbursement under state programs. NRS is not responsible for decisions under state programs or for reimbursing vendors, or for any errors made by a vendor applying for reimbursement. Reimbursement is only available for hardware/software upgrades, not service, maintenance, or transaction fees.

EBT Unlimited is an NRS Pay program subject to terms and conditions. Visit www.nrsebt.com for pricing and complete details. $49.95 per month for unlimited EBT transactions and no additional transaction fees. It requires NRS Pay processing service, which is subject to additional pricing, terms, and conditions. EBT/SNAP is a government program, and all decisions regarding EBT/SNAP, including available benefits, are made by government agencies. NRS is not responsible for any such decisions. EMPLOYEE TIME CLOCK

TRACK EMPLOYEE TIME & ATTENDANCE!

Time Clock Management is a Premium Feature that allows you to track the time and attendance for **all** employees, both POS Users and "Time Clock Only" users.

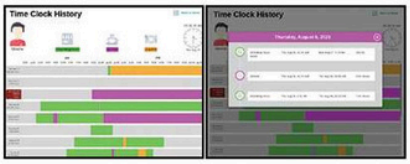

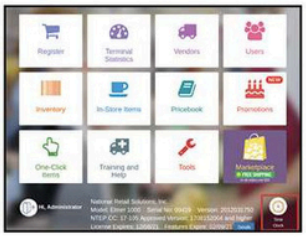

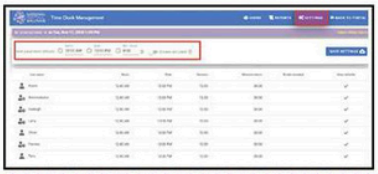

A new ***Time Clock ONLY*** permission profile allows you to create employees that are not ringing sales and finalizing transactions in the POS. Examples of Time Clock ONLY employees would be Stock Personnel, cleaners and Custodians, etc. **Time Clock ONLY employees are identified with a clock icon to the left of their name.** Time Clock Only employees do not count as POS users.

Time clock only users can clock in and out from the main page on the POS. ***POS Users (Manager or Cashier)*** are tracked silently based on their log in.

POS users can click Time Clock History to view their own history in descending order. POS users can view their time clock history for accuracy of hours logged in.

Reports for the Time Clock Management on the Merchant Portal
Reporting features on the merchant portal allows you to create default settings for your store and employees.

In reports, an admin can edit, delete or insert entries. Manual adjustments are identified with an edits icon. Warnings will highlight entries that do not meet default settings. A filter option is provided to expedite merchant's review of specific employees.

Reports provide **daily, weekly,** and **monthly** reports and export to Excel or CSV file format for accounting purposes.

Users tab provides administrators the activity status of all users with corresponding Terminal ID.

TO SIGN UP, CLICK ON THE DETAILS TAB ON YOUR POS AND TAP MANAGE MY FEATURES, OR CONTACT YOUR SALES AGENT.

LOCAL POS DEPOT

RETAILZPOS

Streamline Item Management with History Access, Bulk Changes, and More

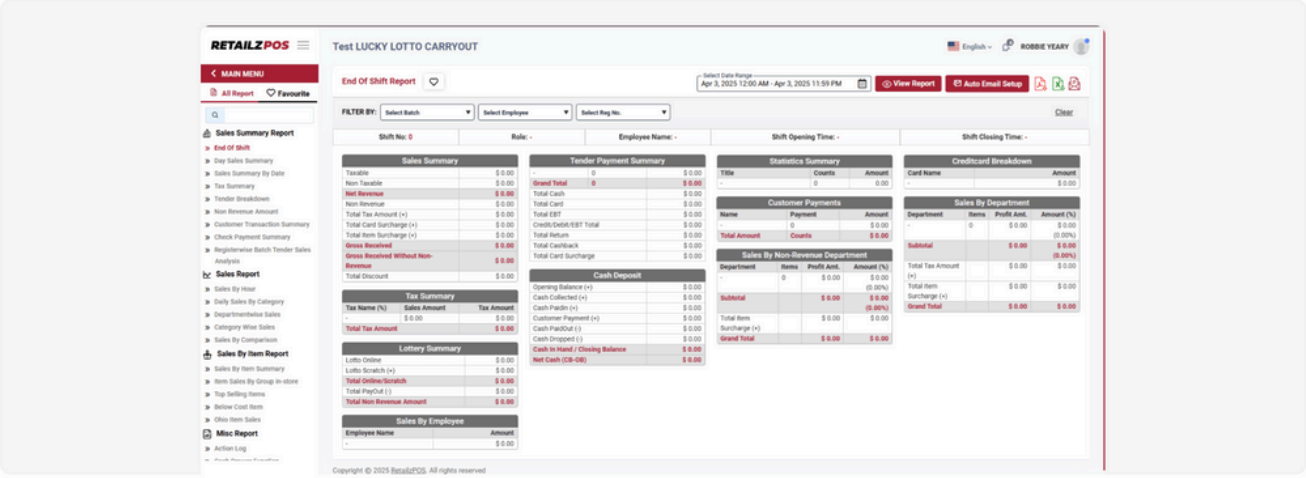

Manage your items effectively through a wide range of RetailzPOS features like access to item history, implementing bulk changes, and creating departments, product categories, or item groupings.

Data-Driven Reports for Informed Decisions

From accounts to sales – manage all kinds of essential data using our convenient reporting features.

Sales Summary Reports. Leverage insights on total revenue, top-performing products, and sales trends to make data-driven decisions and drive business growth

Employee Detail. Access insights on individual performance, sales contributions, check-in timings, and activity metrics to drive accountability and improve team productivity.

Sales By Department. Gain insights into department-wise performance, revenue contributions, and trends to optimize strategies and maximize profitability.

LOCAL POS DEPOT

RETAILZPOS

Empower Your Team

Now you can have your staff records and shift allocations – all at one place.
And manage your employees efficiently across all kinds of operational and functional touchpoints.

Assign Roles. Manage employee access by assigning specific roles and permissions, ensuring the right team members have the appropriate level of control for efficient operations.

Track Your Time. Monitor employee working hours, attendance, and break times to ensure accurate payroll and efficient time management.

Manage Your Shifts. Easily schedule, adjust, and track employee shifts to ensure optimal staffing and smooth operations throughout the day.

Sales And Promotions

Create and manage mix and match promotions while categorizing them across different departments, groups, and sizes!
You can also introduce custom, standard, and multi-item discounts along with promotional offers.

Mix & Match. Offer customers the opportunity to select products from different categories or combinations at a discounted price, enhancing value and driving sales.

Discount. Apply targeted discounts to specific products or categories, attracting customers and increasing sales while maintaining profitability

Kit. Bundle related products together at a special price, offering customers greater value while simplifying inventory management and boosting overall sales.

LOCAL POS DEPOT

RETAILZPOS

CashBack

Allow customers to get cashback after making a purchase, make your POS works similarly to an ATM machine helping customers to withdraw a certain amount of cash through their pin-activated debit card.

NVR Integration

NVR Text inserters offer diverse functionalities, facilitating event search and sharing, along with providing timestamped information about specific occurrences. NVR text inserters overlay data on screen and record real-time data, preventing theft, accounting errors, and shrinkage by ensuring accessibility to relevant details for anyone reviewing security footage.

Electronic Shelf Labels (ESL)

Bring real-time pricing and product information directly to the shelves. With electronic shelf labels (ESL), you can effortlessly update prices, promotions, and product details throughout your store from a centralized system. This not only boosts efficiency and accuracy but also significantly cuts labor costs. Implementing ESL is an eco-friendly choice that keeps your customers informed with the most current information, enhancing their shopping experience.

Mobile Application Management

Retail business is all about staying in sync at all times and our mobile app services help you do just that – with greater ease! Stay connected with your Retail POS system at all times using our mobile app and access all the features that the desktop version offers.
