LOCAL POS DEPOT

Restaurant POS Guide

A curated Local POS Depot brochure for restaurants, cafes, bars, food trucks, quick-service, and full-service dining.

POS Systems | Payments | Hardware | Kiosks | Online Ordering

- Side-by-side restaurant POS comparison pages
- Brand sections for Square, Toast, Clover, TouchBistro, SkyTab, Lavu, and Pye
- Hardware, payments, ordering, kiosk, and operations materials
- Local POS Depot contact page for consultation and quote requests

Find the right restaurant POS faster

This brochure brings together the most relevant restaurant POS and hardware materials into one Local POS Depot branded guide. Use it to compare platforms, review hardware options, and identify which setup fits your restaurant operation.

Full-service restaurants

Tableside ordering, floor plans, pre-auth tabs, kitchen workflow, and reporting.

Quick-service restaurants

Fast order entry, kiosks, online ordering, loyalty, and lower wait times.

Bars, cafes, and food trucks

Mobile POS, handheld payments, tabs, menus, and compact hardware.

Growing multi-location brands

Centralized reporting, integrations, inventory, team tools, and scalable hardware.

Included brand sections

Comparison Guide | Square | Toast | Clover

TouchBistro | SkyTab | Lavu | Pye

Tip: Use this guide on the website as a downloadable restaurant POS consultation resource.

Restaurant POS Comparison Guide

A concise comparison section for buyers who want to quickly compare top restaurant POS platforms.

CHOOSING THE RIGHT POS SYSTEM CAN BE A HASSLE

THE OVER-RESEARCHED RESTAURANT POS SYSTEM COMPARISON GUIDE

Whether you run a takeout restaurant with countless ways to personalize orders or a sit-down restaurant with an ever-changing menu, determining which of the many features, integrations, and pricing structures you need from a POS system can be overwhelming.

We created this buyer's guide to help you decide—without the headache—which POS system best fits your needs.

By the end, you'll know:

- What key POS features your restaurant needs to thrive
- How much you can expect to spend up front and monthly for a new POS system
- Which POS system is ideal for your restaurant

TOAST

The Toast point-of-sale network was built specifically for restaurants. Restaurants find that Toast offers multiple features that contribute to an effective restaurant workflow in-house and online.

KEY FEATURES

TAKEOUT & DELIVERY

Toast users don't need to rely on a third-party app to manage takeout and online delivery orders. After all, 70% of diners prefer to order delivery and takeout directly from a restaurant, rather than through a third-party app.

BACK OFFICE FEATURES

For behind-the-scenes operations, Toast offers a broad range of services including payroll, scheduling and shift management, recruitment resources, and automated nightly reports.

BUILT-IN MARKETING CAPABILITIES

Email marketing, loyalty programs, and gift card features are all included, so you don't have to seek out third-party apps to fill the gaps.

REPORTING & ANALYTICS

Toast's reporting features are available from your mobile device, offering access to real-time restaurant data wherever you are.

"The software is so intuitive I have trained employees in less than two hours who were able to handle the dinner rush with ease. Aside from its easily self-navigated design, the back-end programming is just as straightforward and easy to use"

— Ryan R, G2, 5/5

INTEGRATIONS

Through its API program, the Toast POS system offers the ability to integrate with third-party apps and platforms, such as Lunchbox, Resy, 7shifts, and SevenRooms, among others.

COST STRUCTURE

TOAST OFFERS TWO PRICING OPTIONS FOR ITS STARTER KIT:

PAY AS YOU GO

Purchase the POS system hardware for $0 (taxes and shipping not included) and forgo the monthly subscription fees. Instead, the payment processing fee is slightly higher to accommodate all costs. Expect to pay 2.99% + 15¢ per transaction with this model.

STANDARD

This traditional pricing structure requires you to pay for the hardware upfront ($799) along with a monthly subscription fee ($69/month.) The benefit is a lower processing fee of 2.49% + 15¢ per transaction.

TOAST

The Toast point-of-sale network was built specifically for restaurants. Restaurants find that Toast offers multiple features that contribute to an effective restaurant workflow in-house and online.

POS SETUP

Due to its wealth of features, Toast has a complicated installation process, especially for restaurants with multiple locations, POS systems, or printers to connect.

Toast offers an online knowledge base of helpful installation and usage resources as well.

NOTE: TOAST HARDWARE AND SOFTWARE ARE ANDROID-BASED, MEANING TRANSFERRING TO AND FROM APPLE PRODUCTS CAN PRESENT A CHALLENGE.

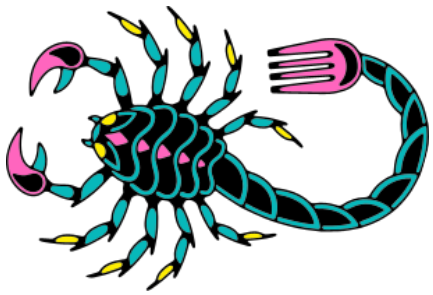

PROS	CONS
BUILT-IN MARKETING, BACK OF HOUSE, OFFICE, AND STAFFING FEATURES	COMPLEX SETUP PROCESS
SCALABLE HARDWARE AND SOFTWARE SOLUTIONS FOR RESTAURANTS, COFFEE SHOPS, AND OTHER FOOD & BEVERAGE BUSINESSES	SPECIFIC HARDWARE REQUIRED FOR USE
ONLINE KNOWLEDGE HUB AVAILABLE	LACKLUSTER CUSTOMER SERVICE
EASY-TO-USE AND INTUITIVE INTERFACE FOR STAFF AND CUSTOMERS.	TECHNICAL PROBLEMS OFTEN CAUSE SERVICE DISRUPTIONS, ACCORDING TO G2 REVIEWS.

"There is a lot of work on the initial setup end of things. Make sure you have a project manager assigned that is computer savvy and understands database management to some extent."

— Anonymous reviewer, G2, 4/5

PRODUCT DEVELOPMENT

Toast bills itself as an all-in-one tool for restaurants. To live up to this promise, the platform is always adding new features to better improve a restaurant's functionality and productivity for customers, employees, and management alike.

BEST FOR...

Toast is an all-around great POS system for new businesses and multi-location restaurants alike. The ability to scale your business and integrate tools such as Lunchbox within Toast's system is unparalleled, no matter if you're starting out or looking to add new features to your growing brand.

CLOVER

Built to accommodate food and beverage businesses, Clover's POS system is known for its flexibility. Every size business, from food trucks to franchises, can leverage Clover's tools.

KEY FEATURES

ACCEPT & PROCESS PAYMENTS

Whether you need a simple card reader or a full-fledged cash register, Clover's hardware and software combinations can grow to meet the payment needs of your business as you grow.

INVENTORY MANAGEMENT

For greater reporting and menu accuracy, Clover's built-in inventory system allows restaurants to stay on top of their ingredients and supplies while monitoring expenses.

ONLINE ORDERING

Use Clover to build an online ordering platform or integrate it into your existing website. Clover Online Ordering is included free with the Table Service plan.

APP MARKETPLACE

Browse through hundreds of apps developed by Clover and other third-party vendors.

MULTIPLE ACCESS POINTS

Access your Clover dashboard from your phone, POS system, or computer.

"I like all the app options and how everything is right on the register and connects to each other. I love how quick the operating system is. For example, when using it as a register, orders can be taken very quickly."

– Administrator in Food & Beverages, G2, 5/5

INTEGRATIONS

Clover offers a wide assortment of pre-loaded native apps for menu and table management, employee scheduling, inventory, promotions, and reporting. The marketplace also includes third-party integrations for popular apps such as Mailchimp, Menufy, Yelp, QuickBooks, and more.

COST STRUCTURE

Clover offers different hardware packages starting at $499, allowing businesses to expand their POS needs as the company grows. The company also charges a fixed monthly fee based on the POS system purchased, plus processing fees based on the package you select.

CLOVER

Built to accommodate food and beverage businesses, Clover's POS system is known for its flexibility. Every size business, from food trucks to franchises, can leverage Clover's tools.

POS SETUP

Setting up a Clover POS system is a quick and straightforward process. Once all devices are connected, the on-screen tutorial walks you through the setup and installation process.

Customers can also access the Clover Help Center or contact customer service for more assistance.

"The POS tablets are very easy to use and train new staff on their operation. Also, the setup of the tablets is fairly simple. The portal is fairly easy to navigate and once all accounts are set up, managing multiple locations is fairly simple."

– Robert, Software Advice, 4/5

PROS	CONS
FULL SUITE OF NATIVE AND THIRD-PARTY APPS FOR COMPREHENSIVE RESTAURANT AND ONLINE ORDERING FUNCTIONALITY	CUSTOMER SERVICE CAN BE DIFFICULT TO GET A HOLD OF, DEPENDING ON YOUR PROBLEM
REVIEWS CLAIM CLOVER'S FEE STRUCTURES ARE MORE AFFORDABLE THAN OTHER COMPETITORS	EXPENSIVE UPFRONT HARDWARE COSTS
SIMPLE SETUP PROCESS	FUNCTIONALITY REQUIRES DIRECT ACCESS TO A BANK ACCOUNT, WHICH MAY BE DETRIMENTAL FOR SOME ORGANIZATIONS
EASY-TO-UNDERSTAND INTERFACE FOR STAFF AND CUSTOMERS	G2 CUSTOMER REVIEWS MENTION FRUSTRATING PRINTER GLITCHES

PRODUCT DEVELOPMENT

Though originally designed for restaurants and food establishments, the company is continuing to expand into ecommerce, professional services, and other industries. Expect new product developments to be geared toward other industries.

BEST FOR...

Clover is best for an established restaurant or quick-service restaurant ready to take their business to the next level. The expensive upfront fees and processing rates can be difficult for first-time businesses to manage.

TOUCHBISTRO

TouchBistro is used by more than 29,000 restaurants across the globe. TouchBistro's suite of offerings includes self-serve kiosks and customer displays, kitchen display systems, and online ordering capabilities.

KEY FEATURES

FLOOR PLAN & TABLE MANAGEMENT

Real-time floor layout and table management features allow your team to provide a seamless guest experience and adjust seating arrangements on the fly.

TABLESIDE ORDERING

Your staff will spend more time with guests and less time waiting for the POS system with tableside ordering tablets.

INVENTORY MANAGEMENT

Keep an eye on inventory levels and reduce food waste across your locations.

ONLINE ORDERING

An available add-on enables customers to place online orders through your website, as well as through your Google My Business listing, social media channels, and other avenues.

"The best part is the mobility that TouchBistro offers with an easy to use and hold iPad. Many products say that they are user-friendly, but this product actually is."

– Emily L., G2, 4.5/5

INTEGRATIONS

TouchBistro has a less than impressive library of third-party app integrations. Only a handful of apps are available per category including accounting, analytics, inventory management, online ordering, payment processing, and staffing.

COST STRUCTURE

TouchBistro POS systems start at $69 per month with the following add-ons available:

- Online ordering — $50/month
- Gift cards — $25/month
- Reservations — $229/month
- Loyalty programs — $99/month
- Self-serve kiosk — $69/month

TOUCHBISTRO

TouchBistro is used by more than 29,000 restaurants across the globe. TouchBistro's suite of offerings includes self-serve kiosks and customer displays, kitchen display systems, and online ordering capabilities.

POS SETUP

Customers say that setting up TouchBistro is quick and simple. It's rated an 8.5 out of 10 on G2 for "ease of setup" while the industry benchmark is a 7.8.

However, TouchBistro requires specific hardware to operate its POS system.

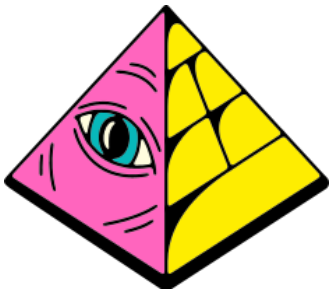

"The one issue we have is the inflexible partnership TouchBistro has with Apple. Thousands of dollars of hardware must be purchased to run TouchBistro, and there is almost no flexibility in what you are allowed to buy to run it."

– Brent, Software Advice, 5/5

PROS	CONS
FOCUSED ON RESTAURANT AND FOOD & BEVERAGE BUSINESSES OF ALL SIZES	SMALL THIRD-PARTY APP LIBRARY CAN LEAD TO DISRUPTIONS IF A SPECIFIC APP OR INTEGRATION IS NEEDED FOR RESTAURANT EFFICIENCY
SIMPLE AND HIGHLY RATED SETUP PROCESS	ADD-ONS SUCH AS ONLINE ORDERING AND RESERVATION FUNCTIONALITY INCREASE MONTHLY PRICE
TABLE MANAGEMENT, MENU MODIFICATIONS, AND REPORTING ALL INCLUDED WITH THE POS SYSTEM PACKAGE	REVIEWS MENTION POOR TIMING OF POS SYSTEM UPDATES, POTENTIALLY LEADING TO DISRUPTIONS DURING DINING SERVICE
TABLESIDE ORDERING INCREASES STAFF EFFICIENCY AND MANAGES HIGH CUSTOMER VOLUMES WITH EASE	

PRODUCT DEVELOPMENT

TouchBistro is focused on developing solutions for businesses in the food service and restaurant industries. Expect any advancements to be tailored for dining service, online orders, and in-house efficiency.

BEST FOR...

TouchBistro is best for restaurants looking to streamline in-house operations and add extra features, such as online ordering, gift cards, and a loyalty program, as the business scales.

SQUARE

Square is a popular POS choice among coffee shops, full-service restaurants, quick-service dining, and more. Square for Restaurants provides staff access to inventory and table management, curbside pick-up orders, and third-party integrations for delivery orders.

KEY FEATURES

ONLINE ORDERING

Square provides all customers with a free online ordering site that automatically syncs with your POS system for real-time inventory, order, and menu management.

ORDER MANAGER

Manage in-house, online, and third-party orders all from one screen for enhanced productivity and increased sales.

BULK ADDITIONS

Save time by skipping manual menu additions and using the bulk update feature.

IN-DEPTH REPORTING

Square's reporting allows business owners to review their data on a granular level.

INTEGRATIONS

Several restaurant, back office, and marketing apps can integrate with the Square POS system. The top apps include DAVO, Odeko, Postmates, TapMango, and Homebase.

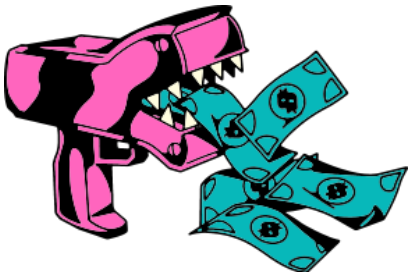

COST STRUCTURE

- **Free Plan** — 2.6% + 10¢ processing fee for in-person and invoice payments. 2.9% + 30¢ processing fee for online payments. Does not include a kitchen display system and has limited support hours.
- **Plus Plan** — $60/month plus processing fees. Includes a kitchen display system, advanced POS features, and 24/7 support.

Custom pricing is available for businesses needing a premium plan for multiple locations.

"I like the convenience of Square Point of Sale. I like that it is quick and easy to use for people who may not be tech-savvy. Square Point of Sale is easy to load on your phone with an app, and you can take it anywhere when you need to conduct payment transactions."

– Kristina O., G2, 5/5

SQUARE

Square is a popular POS choice among coffee shops, full-service restaurants, quick-service dining, and more. Square for Restaurants provides staff access to inventory and table management, curbside pick-up orders, and third-party integrations for delivery orders.

POS SETUP

Square ranks highest for "Ease of Setup" on G2 with a 9.4 out of 10.

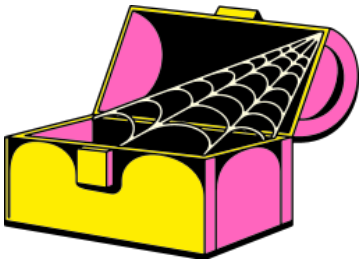

PROS	CONS
EXTREMELY POPULAR POS SYSTEM FOR SMALL RESTAURANTS, COFFEE SHOPS, AND BARS	RESTAURANT MANAGERS NOTE THAT REPORTING CAN BE LIMITED DEPENDING ON DATA NEEDS
FREE PLAN AVAILABLE FOR NEW RESTAURANTS	HIGHER PRICE POINT THAN OTHER POS SYSTEMS AVAILABLE TO RESTAURANTS
SIMPLE USER INTERFACE AND APP MANAGEMENT	CUSTOMER SUPPORT LIMITED FOR FREE PLAN
RAPID AND EASY SETUP PROCESS	

"Square POS has everything for managing a business. From inventory management to scanning barcodes and tap-payment methods for contactless checkouts, it truly has everything to make owning and managing a small business that much easier. Square offers options for customizing your setup to have the devices you want/need without the extra stuff as well."

– Danielle F., G2, 5/5

PRODUCT DEVELOPMENT

Square started as a card reader for small businesses and has expanded into a full-fledged POS and ecommerce system. Expect the company to continue to adapt to consumer and business preferences.

BEST FOR...

The Square for Restaurants POS system is best for new restaurants, ghost kitchens, or smaller restaurants. The platform is scalable as your business grows—but so are the fees.

CHOOSE YOUR RESTAURANT POS SYSTEM

WHICH POS SYSTEM IS BEST FOR YOUR RESTAURANT? USE THIS QUICK GUIDE TO DETERMINE YOUR CHOICE!

	KEY FEATURES	COSTS	BEST FOR...
TOAST	• Takeout and delivery • Back office features • Built-in marketing capabilities • Reporting & analytics	• **Pay As You Go:** 2.99% + 15¢ per transaction. • **Standard:** $799 hardware fee plus $69/month and 2.49% + 15¢ per transaction.	Scalable hardware, software, pricing, and features make Toast a great choice for any restaurant model.
CLOVER	• Accept and process payments • Inventory management • Online ordering • App marketplace • Multiple access points	• **Hardware:** $499+ • **Software:** Fixed Monthly Fee • **Processing Fee**	Established restaurants ready to take their business to the next level.
TOUCHBISTRO	• Floor plan and table management • Tableside ordering • Inventory management • Online ordering (add-on)	• **$69/month** with various add-on fees for specific features • Processing fees vary per processor	Restaurants looking to streamline in-house operations and add extra features such as online ordering.
LIGHTSPEED RESTAURANT	• Reporting and analytics • Table management • Choice of hardware • Personalized service	• **Essentials:** $39/month with 2.6% + 10¢ processing fees. • **Plus:** $119/month with 2.6% + 10¢ processing fees. • **Pro:** $289/month with 2.6% + 10¢ processing fees.	Multi-location or high-traffic restaurants that can offset the high costs of the POS system.
REVEL	• Tablet hardware • Inventory management • Employee scheduling	• $99/month billed annually with a three-year contract • $674 onboarding fee, if necessary • Processing fees	Quick-service or dine-in restaurant with multiple locations to absorb high fees.
SQUARE	• Online ordering • Order manager • Bulk additions • In-depth reporting	• **Free Plan:** 2.6% + 10¢ processing fee for in-person and invoice payments. 2.9% + 30¢ processing fee for online payments. Does not include a kitchen display system and has limited support hours. • **Plus Plan:** $60/month plus processing fees. Includes a kitchen display system, advanced POS features, and 24/7 support.	New restaurants, ghost kitchens, or smaller restaurants. The platform is scalable as your business grows.

Cash Discount Program with Dual Pricing

Generate Savings for Your Customers and Your Restaurant

Offset up to 99% of credit card processing fees.

Everytime a customer uses a credit or debit card, you lose roughly 3-4% on the transaction. Lavu's **Cash Discount Program with Dual Pricing** cuts this expense by rewarding customers when they pay in cash.

Offering a cash discount also gives customers the option to save—they can choose not to pay higher menu prices.

The **Cash Discount Program with Dual Pricing** is a win-win. Imagine how much you'll save in one year.

Learn how Lavu can save you money.

Visit lavu.com to schedule a demo.

LAVU

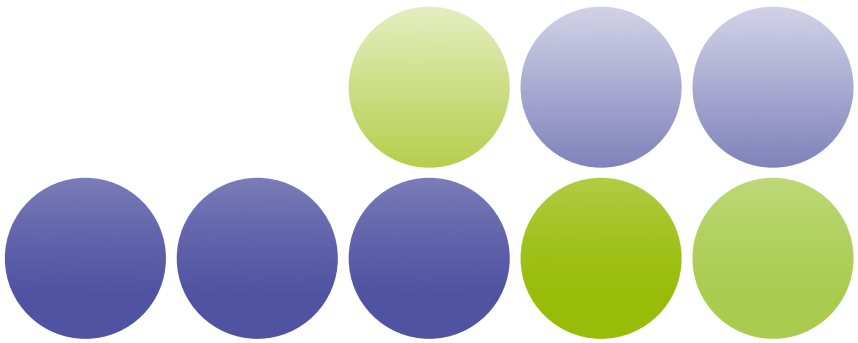

What's a Cash Discount Program with Dual Pricing? How Does It Work?

Lavu's **CashDiscountProgramwith Dual Pricing** rewards customersforpaying in cash andhelpsrestaurantsoffsetup to 99%of theircredit cardprocessingfees.

When an order is entered into Lavu POS, two prices are generated—one for Card Price and one for Cash Price.

The customer can choose the Cash Price which applies a cash discount off the Card Price total. The entire transaction is fully transparent.

If the guest pays in cash, they save. If the guest pays with a card they pay the higher listed price offsetting up to 99% of credit card processing fees.
