Manage your Inventory Effortlessly

Explore how the RetailzPOS Inventory Dashboard can transform your business.
Get more details about your purchases and assign them to respective items.

Monitor Your Inventory. Get insights on stock levels, turnover rates, and overall inventory health to make informed decisions.

Manage Your Distributors. Keep track of your purchases and suppliers for more efficient operations.

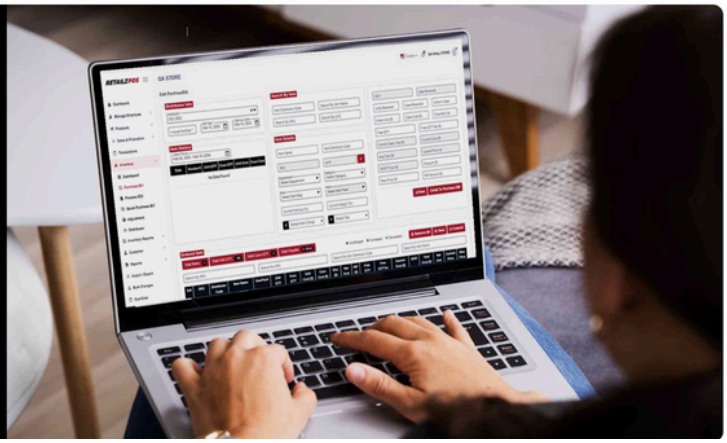

Real-time Updates With an Intuitive Dashboard. Get a clear overview of your stock, identify trends, and manage items effectively.

LOCAL POS DEPOT

RETAILZPOS

EDI Invoicing

It's time to send those purchase orders, payment requests, and order confirmations to your customers – electronically

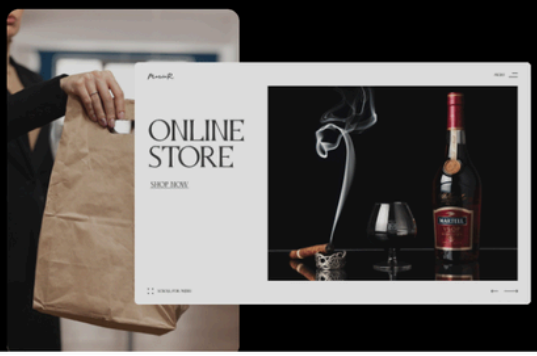

Sell Online With our Ecommerce Integration

Deliver a unified shopping experience across all channels with RetailzPOS.
Empower your customers to shop online, pick up in-store, or process returns in person—all with ease.

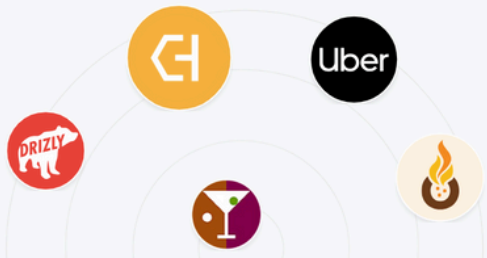

Build Your Website

Choose from the multiple templates curated for you and build your own website.

Third Party integration

Sell on any of the third party integration that we have for you.

Earn Money Through Rebates

Maximize your revenue and earn cash back with our **scan data programs**, rewarding you for every scan based on performance while partnering with top tobacco manufacturers like Altria, R.J. Reynolds, and more.

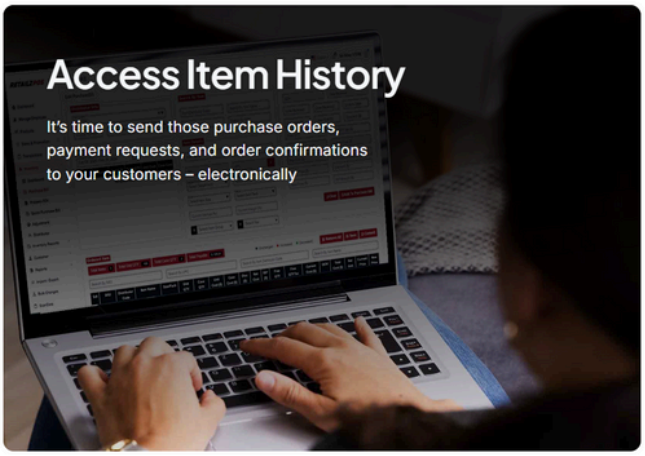

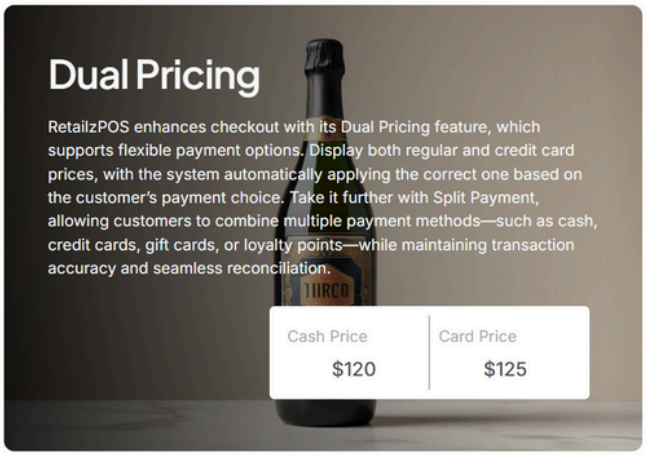

LOCAL POS DEPOT

RETAILZPOS

Streamline Item Management with History Access, Bulk Changes, and More

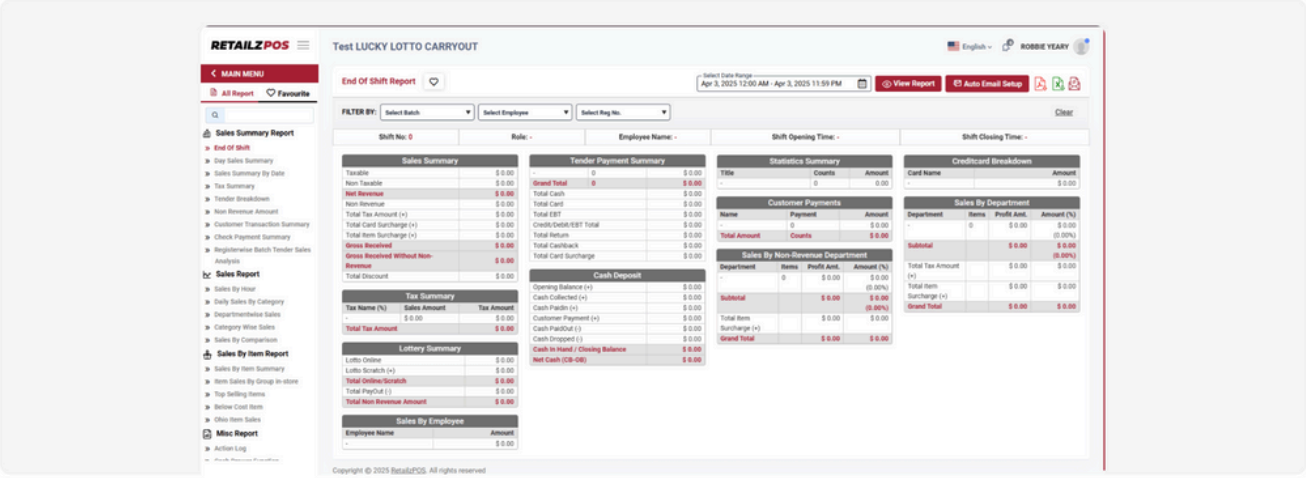

Manage your items effectively through a wide range of RetailzPOS features like access to item history, implementing bulk changes, and creating departments, product categories, or item groupings.

Data-Driven Reports for Informed Decisions

From accounts to sales – manage all kinds of essential data using our convenient reporting features.

Sales Summary Reports. Leverage insights on total revenue, top-performing products, and sales trends to make data-driven decisions and drive business growth

Employee Detail. Access insights on individual performance, sales contributions, check-in timings, and activity metrics to drive accountability and improve team productivity.

Sales By Department. Gain insights into department-wise performance, revenue contributions, and trends to optimize strategies and maximize profitability.

LOCAL POS DEPOT

RETAILZPOS

Empower Your Team

Now you can have your staff records and shift allocations – all at one place.
And manage your employees efficiently across all kinds of operational and functional touchpoints.

Assign Roles. Manage employee access by assigning specific roles and permissions, ensuring the right team members have the appropriate level of control for efficient operations.

Track Your Time. Monitor employee working hours, attendance, and break times to ensure accurate payroll and efficient time management.

Manage Your Shifts. Easily schedule, adjust, and track employee shifts to ensure optimal staffing and smooth operations throughout the day.

Sales And Promotions

Create and manage mix and match promotions while categorizing them across different departments, groups, and sizes!
You can also introduce custom, standard, and multi-item discounts along with promotional offers.

Mix & Match. Offer customers the opportunity to select products from different categories or combinations at a discounted price, enhancing value and driving sales.

Discount. Apply targeted discounts to specific products or categories, attracting customers and increasing sales while maintaining profitability

Kit. Bundle related products together at a special price, offering customers greater value while simplifying inventory management and boosting overall sales.

LOCAL POS DEPOT

RETAILZPOS

CashBack

Allow customers to get cashback after making a purchase, make your POS works similarly to an ATM machine helping customers to withdraw a certain amount of cash through their pin-activated debit card.

NVR Integration

NVR Text inserters offer diverse functionalities, facilitating event search and sharing, along with providing timestamped information about specific occurrences. NVR text inserters overlay data on screen and record real-time data, preventing theft, accounting errors, and shrinkage by ensuring accessibility to relevant details for anyone reviewing security footage.

Electronic Shelf Labels (ESL)

Bring real-time pricing and product information directly to the shelves. With electronic shelf labels (ESL), you can effortlessly update prices, promotions, and product details throughout your store from a centralized system. This not only boosts efficiency and accuracy but also significantly cuts labor costs. Implementing ESL is an eco-friendly choice that keeps your customers informed with the most current information, enhancing their shopping experience.

Mobile Application Management

Retail business is all about staying in sync at all times and our mobile app services help you do just that – with greater ease! Stay connected with your Retail POS system at all times using our mobile app and access all the features that the desktop version offers.

GET IT ON Google Play

Individual POS Equipment

Don't need an entire hardware bundle? We have individual hardware to get you going.

Lightspeed Stand for iPad

The stylish and sturdy design of this iPad stand makes for a seamless checkout. With a magnetic swivel, customers and employees can see for themselves.

Cash drawer

The cash drawer can connect through one of our supported printers.

Bluetooth barcode scanner

Our Bluetooth scanner is certified by Apple and integrates seamlessly with Lightspeed's iPad app.

WisePOS E

Take payments at the counter or at the curb with this mobile terminal.

Universal Stand for Tablets

Perfect for most tablets, this stand goes from POS to customer-facing display with its swivel base. The quick-removal option lets you serve on the go.

WisePad3

Take payments anywhere with this Bluetooth payments terminal. Only available in Canada.

USB barcode scanner

Our USB scanner is easy to set up, integrates seamlessly to your POS and is durable enough for high-volume retail.

TM-m30

With triple interface connectivity, this printer has top-load or front-load configuration options.

Mobile Tap V2

Pair this bluetooth card reader to take fast and reliable payments. Tableside or at the counter, it reads magstripe, EMV-enabled cards and NFC card tapping.

Epos Now

Retail POS hardware, countertop terminals, card readers, printers, barcode scanners, and checkout accessories.

- Countertop POS terminal and card reader options
- Printers, barcode scanners, and accessories
- Retail and hospitality-ready hardware bundles

Compatible software: Combine Dejavoo's D1 Cloud Register with DejaPayPro and you have the dynamic duo of payment processing. Add a Dejavoo PIN pad terminal and you have a complete all-in-one POS system.

All the features your merchants need in one affordable, feature-rich payment package.
Verticals include new merchants, retail shops and Quick Service (QSR) and Table Service (TSR) restaurants.

Benefits for merchants include:

For Retail – real time reporting, simple user interface, accept all card types and Apple Pay, Google Pay and contactless cards.

For Restaurants – tip adjust, table mapping, reservation management, online ordering, Dual Pricing with the ability to treat debit same as cash.

Dual displays for more efficient transactions – we've got your back (and your front).

Hardware features:
•Dual Screens
> Merchant facing – 10.1", 800*1280 with touch panel
> Customer facing – 4", 480*800
• Quad-core 2.0G super-fast processor
• 2600 mAh high-capacity battery
• Ethernet, 4G, Wi-Fi, Bluetooth 5.0, USB connectivity

"DejaPayPro is a complete, easy-to-use POS system designed for SMBs in the retail and restaurant industries. In today's world, even small business owners require access to vital data such as key parameters and sales metrics, which cannot be managed using a basic Excel spreadsheet."
Andrés Caraballo, DejaPayPro Product Manager
